

SEED Practitioner Labs for Policy Prototyping

Propelling MSMEs as Drivers of the Green and Inclusive Economy
Kick-Off Lab

📅 1 & 2 September 2020 | 9:00 – 15:00

📍 Bangkok, Thailand – Theatre I, 3rd FL, Double Tree by Hilton

Strategic Partner

Over two interactive days at the Kick-Off Lab, explore policy challenges facing eco-inclusive small and growing enterprises, and collaborate to co-create prototype solutions, based on SEED’s tested and proven innovative prototyping methodologies.

DAY ONE | Challenge Introduction & Solution Ideation

Introduction to the challenges identified and policy gaps for eco-inclusive MSMEs. Participants dig deeper into the ecosystem of each challenge, kick-off solution ideation for the challenges, and put themselves into the shoes of the target audience.

DAY TWO | Solution Development

Solution ideas from Day One are prioritised and selected ones are picked for further detail development. Develop details (mechanisms) of the prototype solutions with the intended target audience in mind; identify potential risks of developing the solution. Plan a working structure for next steps into the testing phase.

The Challenges

 <p>Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH</p>	<p>1) Enhancing and Scaling MSMEs’ Capacities to Reduce Single-use Plastics (GIZ/PCD)</p>
 <p>LISTENFIELD</p>	<p>2) Improving Data Management of SMAEs Network for Smart Food Supply Chains (ListenField)</p>
 <p>Stockholm Environment Institute</p>	<p>3) Supporting MSMEs in the Creation of a Circular Economy (Stockholm Environmental Institute & Office for SME Promotion (OSMEP))</p>
